ONECHILD PARTNERS FUND

Each gift to the OneChild Partners Fund allows us to go further into the hard places and makes it possible to reach more kids.

Your partnership will create sustainable solutions that empower kids to thrive in every area of life:

- Vibrant **Health**
- Quality **Education**
- Supportive **Community**
- A journey of **Faith**

**Join our global community
of Child Champions.**

HEALTH *Health and Human Services*

OneChild's health initiatives meet the broader scope of a child's critical needs. Opportunities include innovative health solutions to help children thrive.

- Nutrition, water, sanitation and hygiene
- Child protection, health support and disease prevention to reduce serious illnesses
- Medical equipment, environmental safety and humanitarian action
- Medical treatment and care for sick children

EDUCATION *Education and Leadership*

OneChild builds bigger smiles and brighter futures. Each day through structured learning and contextualized programming we inspire kids to dream. Hope Centers give children a safe place to learn and grow. Our children believe a better future is possible.

- Promotion of education and higher learning, including direct support for schools in some countries
- Career guidance, livelihood training and positive youth development
- Leadership opportunities that improve their lives into the future

COMMUNITY *Capacity Building and Development*

Listening to the communities we serve fuels innovation and change even in the most challenging areas. Together, we deliver hope for the future, economic stability and collaborative community growth.

- Strengthening infrastructure to improve the child experience
- Innovative building projects that support a flourishing community and environment
- Resource management, field partner experience and sustainability

FAITH *Spiritual Formation*

OneChild encourages kids through Child Champions, dedicated mentors in their own communities who help them rise above difficult circumstances. Through local partnerships with churches, communities and schools, we operate Hope Centers that enable children to thrive.

- Retreats, camps and faith-building connections to nurture future leaders
- Child/Youth activities that build Godly character
- Psychosocial growth and church-based education
